The following is the report:

Cincinnati, May 8, 1878, B. S. Cunningham, Esq., President Cincinnati Pork Fackers' Association:

Dear sir: I have the honor to submit the following statement of the stock of the hog product in this city on the first say of May, with figures showing the stock of the respective articles at the corresponding period of the preceding year. In doing this, it affords me much pleasure to publicly recognize the general disposition of the trade to ald me in the prosecution of this work. Two years ago, nearly four weeks were consumed in an effort to collect such materal, growing out of indifference, reluctance, or downright opposition to such a inovenent on the part of some of the holders of stocks, and though with prempt returns, the time might yet be materially reduced. We have much cause for congratulation in this effort.

In preparing this roport, the business of one humared and forty firms, or individuals, has been consulted. It should be stated, hewever, that of this number, twenty-two report no stock or stock held in other houses in which the same has been reported. Of the whole number comprising packers, curers, manufacturers, brokers, wholesale grocers, commission houses, &c., all but one submitted written or verbal statements on which this report is based, have been submitted.

It is proper to remark that much care has been exercised to avoid the dupication of stock and canal differences in the number of reports being traceable more to stock having found its way to a larger number of places of deposit than to any other cause.

It will be observed, however, that the report is more comprehensive than any preceding report, in that it includes as complete details of the summer produced and the pursuit of the summer produced and power of the readers of their conditions, but whether these

The agitation concerning the Water-works investigation continues. The delinquencies of the different Collectors, according to the statements by the Secretary of the Water-works Board are about as follows:

Wm. Merk, 1st District, \$4,247 50; Coughlin, 24, 34,114 50; Chas. Bowman, 35, 31,750 55; S. C. Hugnes, 4th, \$1,304 25; J. B. McCormick, 6th, \$2,051 26; W. H. Whetstone and Louis Dudo, in the 7th and 8th, are probably benind attours 1,000.

Mr. F. W. Merk is in the greatest trouble of any of the delinquents. He attempts to lay the blame of his tardiness upon Mose Kramer, who has been acting as his agent in collecting, but Mr. Kramer disclains any responsibility in the matter.

inas been acting as his agent in collecting, but Mr. Kramer disclains any responsibility in the matter.

The receipt books signed by Robert Moore, City Treasurer, seem to prove that Kramer was the more panethal of the two in d positing the collections on Merk's route. There is a lapse of a month in some parts of the books between moneys credited to Merk as the depositor.

Mr. John Twatchman, Merk's bondsman, has sugaged Tom Campbell to look into the matter, and proposes to make a vigorous sight. He claims that the law does not authorize the substitution of any agent for the collection of rents, and that the proper authorizies of the Water-works Board can be under responsible for any losses that may arise from such negligence of their official duty.

A STAR reporter saw Mose Kramer in the office of the department in the City Buildings today, who wanted to know if he was to be interviewed.

"I will not be interviewed" he said, "Any further than to say that not a cent of Waterworks money has been located by me to any Trustee."

"But how about other members of the city government?"

"That is none of your business or the business of anybody clas."

Mr. J. H. Grenter, Secretary of the Board, states that he desires it understood that there have been irregularities in the Board, and that an investigation is needed to straighten matters up.

The three gentlemen named in Mr. Bowman's

an investigation is needed to straighten matters up.

The three gentlemen named in Mr. Bowman's resolution as a Committee of Investigation have been officially notified, and the investigation will probably begin the early part of next week.

In the meantime it is probable that all of the missing money may be paid in. Mose Kramer paid the delinquencies on his own collections about more to-day, which, after deducting his commitsion, amounted to about \$1,400.

The committee appointed by the Board of Water-sworks Directors and the one appointed by the Board of Connellmen Friday, are preparing for work, but have done nothing as yet.
